

REMARKS

In the Office Action, the Examiner indicated that claims 1 and 6 through 43 are pending in the application and the Examiner rejected all claims.

The Figures

At item 2 on page 2 of the Office Action, the Examiner requested that applicant label "various elements in the Figures." Applicant respectfully requests the Examiner to indicate more specifically which elements of the figures require labeling (all appear to be numbered with a textual description provided in the specification). Once identified, applicant will promptly submit revised drawings that satisfy the Examiner's request.

The §112 Rejections

At item 4 on page 2 of the Office Action, the Examiner has rejected claims 1 and 6-43 under 35 U.S.C. §112, second paragraph, as being indefinite, and requires various amendments to be made to claim 1. Applicant has made the necessary amendments and respectfully submits that these rejections have been overcome. Accordingly, the Examiner is respectfully requested to reconsider and withdraw the rejection of claims 1 and 6-43 under 35 U.S.C. §112.

Since the Examiner has not repeated the §102 rejections presented in the previous Office Action, nor made any new art rejections, applicant assumes that no art rejections need to be addressed.

Conclusion

In view of the foregoing amendments and remarks, applicant respectfully requests entry of the amendments, favorable reconsideration of the application, withdrawal of all rejections, and that claims 1 and 6 - 43 be allowed at an early date and the patent allowed to issue.

The Commissioner is hereby authorized to charge any additional associated with this communication to Deposit Account No. 50-4364.

Respectfully submitted
